23 October 1998

Original: English

Fifty-third session
**First Committee**
Agenda item 71 (e)
**General and complete disarmament**

**Egypt, Jordan, Myanmar, Niger, Nigeria, Sudan and Swaziland: draft resolution**

# Transparency in armaments

*The General Assembly*,

*Bearing in mind* that in accordance with the Charter of the United Nations, Member States have undertaken to promote the establishment and maintenance of international peace and security with the least diversion for armaments of the world's human and economic resources,

*Considering* the urgent need to accelerate efforts towards general and complete disarmament with a view to maintaining regional and international peace and security in a world free from the scourge of war and the burden of all types of armaments,

*Considering also* that openness and transparency relating to all types of armaments would contribute greatly to confidence-building and security among States,

*Recognizing* that an enhanced level of transparency relating to both conventional weapons and weapons of mass destruction and transfers of equipment and technologies directly related to the development and manufacture of such weapons, as well as to high technology with military applications, would promote stability, strengthen regional and international peace and security and accelerate efforts towards general and complete disarmament,

*Recognizing also* that the United Nations Register of Conventional Arms, in its current form, constitutes an important first step towards the promotion of transparency in military matters,

*Convinced* that the principle of transparency should also apply to all weapons of mass destruction, in particular nuclear weapons, and to transfers of equipment and technology directly related to the development and manufacture of such weapons, as well as to high technology with military applications,

98-32062 (E) 241098

*Aware* of the need to foster international efforts in this direction through, *inter alia*, the constant review of the operation of the Register with a view to its further development,

*Stressing* the need to achieve universality of the Treaty on the Non-Proliferation of Nuclear Weapons, and of the Chemical Weapons Convention and the Biological Weapons Convention, with a view to realizing the goal of the total elimination of all weapons of mass destruction,

*Recalling* its earlier resolutions on transparency in armaments,

1. *Takes note* of the report of the Secretary-General on transparency in armaments;

2. *Recalls* the reports of the group of governmental experts which convened in 1994 and 1997 to consider the continuing operation of the Register and its further development, and the views expressed and proposals presented therein;

3. *Recognizes* the importance of achieving greater progress in the further development of the Register in order that it may truly enhance confidence-building and security among States and accelerate efforts towards attainment of the goal of general and complete disarmament, and to that end *urges* Member States to submit their views to the Secretary-General concerning the following matters with a view to their consideration by the Group of governmental experts to be convened in the year 2000:

(a) The early expansion of the scope of the Register to include military holdings and procurement through national production;

(b) The elaboration of practical means for the further development of the Register in order to increase transparency related to weapons of mass destruction, in particular nuclear weapons, and to transfers of equipment and technology directly related to the development and manufacture of such weapons, as well as to high technology with military applications;

4. *Decides* to include in the provisional agenda of its fifty-fourth session the item entitled "Transparency in armaments".
